

VRISHANK KIRPANE

Software Developer | Full-Stack (MERN)

Panvel, Maharashtra, India | Phone: 9324031229 | Email: vrk.vrishank@gmail.com | LinkedIn: linkedin.com/in/vrishank-kirpane | GitHub: github.com/vrishank1234

SUMMARY

Full-stack developer who cut feature delivery time from ~1 month to 10 days by embedding AI-assisted workflows into a 5-person Agile team, and reduced reported production bugs by 80% through disciplined testing. Experienced building MERN-stack applications and RESTful APIs currently used by 3 companies and 150+ end users. Foundational cybersecurity coursework (Cisco certifications) in networking, ethical hacking, and pentesting fundamentals.

SKILLS

Languages: Python, JavaScript
Frameworks & Libraries: React, Next.js, Node.js, Express, FastAPI
Cloud & Tools: AWS S3, Git, GitHub, Cursor, Postman
Concepts: RESTful API Design, DBMS Architecture, Agile/Scrum, UI/UX Design, Authentication & Authorization
Systems & Security Fundamentals: Linux, Networking, Introductory Ethical Hacking & Pentesting Concepts

PROFESSIONAL EXPERIENCE

Software Developer — Let's Upgrade July 2025 – April 2026

- Architected and iteratively rebuilt 3 full-stack versions of a production web application now used by 3 companies and 150+ end users, improving UI/UX, backend architecture, and performance with each release.
- Engineered and shipped 14+ frontend and backend pages, delivering responsive interfaces and scalable backend functionality using React/Next.js, Node.js, and FastAPI.
- Streamlined frontend-backend communication by integrating RESTful APIs, enabling reliable, low-latency data flow across the application.
- Collaborated with a 5-person cross-functional team in Agile sprint planning, feature implementation, and peer code reviews.
- Coordinated version control and branching strategy across a 5-person team using Git and GitHub, supporting parallel feature development without merge conflicts.
- Embedded AI-assisted tools (ChatGPT, Cursor) into the development workflow, cutting average feature delivery time from ~1 month to 10 days.
- Drove testing and debugging cycles that reduced reported production bugs by 80%, improving application reliability and maintainability.

PROJECTS

Skill OS — AI-Powered Skill Mapping & LMS Platform

- Led a 5-person team to develop a Learning Management Platform spanning 15+ skill categories, combining organizational skill mapping, capability assessments, and personalized, role-aligned learning journeys.
- Designed a 4-stage skill mastery workflow (Map → Assess → Journey → AI Nudge) to identify skill gaps and auto-generate learning paths.
- Validated the platform through a 6-week pilot with 50 users, informing improvements to completion rates ahead of broader deployment.
- Enabled support for multiple content formats (video, PDF, SCORM) so organizations could reuse existing training materials without migration.
- Tech: AI/LLM integration, REST APIs, LMS architecture, skill analytics, full-stack web development.

ReadwiseAI — AI Reading Assistant

- Independently designed and built an AI reading assistant that cut article comprehension time by ~70%, condensing long-form web content into concise, knowledge-focused summaries.

- Adopted by 4 regular users to process 25+ articles, validating the summarization pipeline's real-world usefulness.
- Developed an interactive query feature allowing users to ask follow-up questions against article content rather than relying on static summaries.

EDUCATION

ITM Skills University — B.Tech, Computer Science & Engineering

2023 – 2027 (Expected)

Sanjivani International School — Class XII

[2022]

Delhi Public School (DPS) — Class X

[2020]

CERTIFICATIONS

- Cisco Networking Academy — Introduction to Cybersecurity
- Cisco Networking Academy — Introduction to Networking
- Cisco Networking Academy — Introduction to Ethical Hacking
- Cisco Networking Academy — Introduction to Penetration Testing

AWARDS & ACHIEVEMENTS

- 2nd Position — Ace of Hacks Hackathon
- Finalist — PIWOT IIT Design Hackathon
- 3rd Position — Smart India Hackathon (SIH), Internal Round
